### **Bubboon's Tunes Releases Their Second CD of Children's Music, PLAYGROUND OF MY MIND**

The perpetrators of the popular children's song "The Cheese Song" have released their second album, PLAYGROUND OF MY MIND.

PLAYGROUND OF MY MIND is a new collection of completely original silliness from Bubboon's Tunes. Written and performed by Bill and Jennifer Winegardner, the songs are filled with ideas familiar to anyone who is or has ever been a kid: the eternal battle between kids and parents over bedtime... how to react when your ice cream unexpectedly falls off its cone and lands (splat!) on the ground... the beautiful sound of your first bike horn... and more!

Bring your imagination and get ready to have some laughs with Bubboon's Tunes in the PLAYGROUND OF MY MIND!

Songs by Bubboon's Tunes have become a popular staple on WXPB Philadelphia's Kid's Corner hosted by Kathy O'Connell...and on other children's radio shows around the world. "The Cheese Song" has been the #1 Song on Kid's Corner since 2004, and Bubboon's Tunes' first album, SONGS TO BLATHER BY, was named a finalist in the 2004 Children's Music Web Awards in the *Best Younger* category. Their song, "The Blather Song," was also nominated for *Best Children's Song of 2002* by Just Plain Folks.

Jennifer & Bill Winegardner created Bubboon's Tunes based on "Bubboon, The Royal Fool", a popular character Bill created at the Sterling Renaissance Festival in upstate NY in 1996. Since then, they have been delighting kids of all ages with song and jest.

PLAYGROUND OF MY MIND is available for purchase online at [www.amazon.com](http://www.amazon.com) and at [www.cdbaby.com](http://www.cdbaby.com).
